Response to Questions

for

Request for Proposal for

NETWORK TRANSPORT AND ACCESS

for

Pikes Peak Library District

RFP #520-20-10

Q1: Page 8, 3.2 You mention internet service at all locations identified in Appendix A. However, you don't give bandwidth requests for more than 4 locations in Table1.

Q2: Are you asking for Internet Broadband for all location in Appendix A?

Q3: Also can you clarify the technology your looking for as described by "Broadband Internet Service" IE best effort, fiber based etc.?

A1, A2, A3: PPLD only has 3 connections to the internet via the East, Penrose, and Library 21c sites. PPLD is only seeking quotes for these 3 connections to the internet at this time. PPLD is open to considering all technologies for "Broadband Internet Service".
