**INTRODUCTORY.**

We present herewith the first volume of R. L. Polk & Co.'s Colorado Springs, Colorado City and Manitou Directory.

Only competent and thoroughly trained men have been engaged in its preparation. Every home in the three cities, from the humblest cottage to the most palatial mansion, has been visited. In each place our enumerators have intelligently and persistently plied their questions for the names of all members of the family and others entitled to insertion in the Directory. In addition to the inquiries made at the homes; every office, store, factory, hotel and lodging house has been fully canvassed. This has been followed by a compilation which prevents the omission of names of persons which should appear in the Directory.

The work has been performed as promptly and rapidly as it has exactly, and it is confidently believed that the superior facilities used and maintained by this company for over a third of a century, throughout every State and Territory in the Union, has made a Directory of Colorado Springs, Colorado City and Manitou, possessing all the merits of the largest and best Metropolitan Directories.

Particular attention is called to the arrangement of the information contained in this work: Pages 25 to 33 contain a revised and up-to-date Street and Avenue Guide of Colorado Springs; Pages 34 to 64 contain what is technically termed "Miscellaneous Information"—such as the Government of Colorado Springs and El Paso County, State Officers, State Institutions, United States Officers located in Colorado, Courts, Colorado Springs Post Office, Rates of Postage, Churches, Clubs and Societies, Colleges and Schools, Hospitals and Sanitariums, Labor Organizations, Libraries, National Guard, Newspapers, Parks, Public Buildings, Halls, etc., Railroads, Secret and Benevolent Organizations, Street Railways etc., etc.

The alphabetical section of Colorado Springs follows the above—pages 65 to 513. The miscellaneous and alphabetical information for Colorado City will be found on pages 514 to 579; and for Manitou, pages 580 to 601. Pages 602 to 666 contain the names and addresses of all merchants, business and professional men of the three cities, classified under appropriate headings which places all persons of like business together.

The last section of the work—pages 667 to 746 contains the "Directory of Household-ers" of Colorado Springs, arranged by streets and avenues.

On page 21 will be found a General Index. This should be referred to by all until they become familiar with the several departments of the work.

## POPULATION.

The Colorado Springs alphabetical department contains by actual count, 14,947 names, not including the names of firms or corporations, death or removal notices. By using the very conservative multiple of  $2\frac{1}{4}$ , we estimate the present population of Colorado Springs to be

**37,367.**

The Colorado City alphabetical department contains 2259, and Manitou 626 names. Using the same multiple, we estimate the population of these cities to be 5,647 and 1,565 respectively. R. L. Polk & Co.'s estimate of population has proven so reliable and accurate in the past, and this fact is so generally known and appreciated throughout the Union, that it is unnecessary to comment on it further.

We thank our patrons and the public in general for courtesies extended to us and our canvassers and promise to issue the Colorado Springs, Colorado City and Manitou Directory regularly hereafter, with such improvements from time to time as the wants of our patrons may require.

**WHY NOT BE UP-TO-DATE?**

Electric Power can be utilized for operating ventilating fans,  
 printing presses, elevators and general machinery of all classes.  
 It is the cheapest method when you consider the following  
 points:

- It is ready to use at any time during twenty-four hours of  
 each and every day in the year.
- It accumulates no ashes or waste of any kind.
- Electric motors require little or no expense for maintenance.
- On a meter basis you pay for the power you use.

**"Try all things; hold fast to that which is good."**

If one pursue a financial policy for two or five years with no success, you would advise a change.

If you have lost your health and treatment of one kind fails to cure in a reasonable time, would it not be wise to change. Be reasonable. Think. What constitutes merit? Not age, but results. This is where Osteopathy wins. It cures after all else fails. Can cure easier, quicker, at first.

Osteopathy is the most rational, reasonable, scientific system of therapeutics. It requires much more definite knowledge of the body and its functions than any other.

If you are not satisfied with your condition of health, come, let me examine you. It will cost you nothing.

I have studied Medicine and had special course in Diseases of Women, as well as being a graduate of Still College of Osteopathy.

Come, get free literature and investigate. I invite the most thorough investigation.
